 **No AI here**

PHASE 4 — FAQs (PREDEFINED QUESTIONS)

User selects:

3

BOT

Select a question below 

- 1 Why do solar panels need cleaning?
- 2 How often should panels be cleaned?
- 3 Which cleaning method is best?
- 4 Is solar panel cleaning safe?
- 5 Other question
-  Back to Menu

Bot State: PREDEFINED_QA

◆ User selects predefined FAQ (1–4)

BOT (Hardcoded Answer)

Solar panels lose efficiency due to dust, bird droppings, and pollution.
Regular cleaning improves power generation and panel life.

BOT (Follow-up)

Was this helpful? 😊

- 1 Yes
 - 2 No, I have another question
 - ← Back to Menu
-

◆ If user selects Yes

→ Return to Main Menu

◆ If user selects No

→ Move to AI MODE

● PHASE 5 — AI MODE (ONLY AFTER PREDEFINED FAILS)

BOT

🤖 You can now type your question.

Our AI assistant will answer using our service information.

Bot State: AI_MODE

◆ User types free question

Can chemical cleaning damage solar panels?

AI (Restricted Answer)

Chemical cleaning does not damage solar panels when done professionally.

We use eco-safe, panel-approved chemicals and controlled methods to protect the glass and coating.

BOT (Mandatory Follow-up)

Was this answer helpful?

- ☐ 1 Yes
 - ☐ 2 No, talk to expert
 - ☐ ← Back to Menu
-

PHASE 6 — OUT-OF-SCOPE & NOT SATISFIED HANDLING

Out-of-scope examples:

- Exact quotation
- Discounts
- Site inspection scheduling
- Legal / warranty guarantees

AI response:

I may not have the exact information for this.

Would you like our expert to call you?
